EHB[®] for Airport Ground Vehicles (GSE)

Mobile Column Lifts

for

Airport Ground Vehicles (GSE)

- + Mobile and universal use.
- + Practical and easy maneuverability of every column, short set-up time and fast lifting speed.
- + Maximum safety utilizing double load securing at any lifting height.
- + Reliable hydraulic drive, self-lubricating, totally insensitive to moisture, dirt and sand, minimum maintenance required.

Mobile column EHB705-PR249 (also wireless version)

Capacity: 5 t
Load support: Universal fork tines for wheels and chassis
Length 400 mm
Adjustable for wheels Ø 550 - 1420 mm
Support height: 70 mm
Width column: 1525 mm
Utilisation: Aircraft luggage cart tugs, container transporters, mobile stairs, standard buses and trucks ...

Mobile column EHB706-G1 (also wireless version)

Capacity: 6.5 t
Load support: Universal fork tines for wheels and chassis
Length 590 mm
Adjustable for wheels Ø 550 - 1420 mm
Support height: 100 mm
Width column: 1650 mm
Utilisation: Aircraft luggage cart tugs, container transporters, mobile stairs, trucks, airfield buses (with inside wheels) ...

Mobile column EHB710V16-PR248 (also wireless version)

Capacity: 10 t
Load support: Universal fork tines for wheels and chassis
Length 450 mm
Adjustable for wheels Ø 550 - 1600 mm
Support height: 100 mm
Width column: 1585 mm
Utilisation: Light and medium airplane tractors ...

Mobile column EHB715-G1

Capacity: 15 t
Load support: Universal fork tines for wheels and chassis
Length 575 mm
Adjustable for wheels Ø 550 - 1800 mm
Support height: 90 mm / 70 mm at front
Width column: 1920 mm
Utilisation: Heavy airplane tractors, high loaders ...
